

# **FIRMWARE UPDATED CONTENT AND FUNCTION DESCRIPTION**

<b>PavoBulb 10C</b>	<b>V1.01.01</b>
---------------------	-----------------

Version	Upgraded	Firmware Version	Date
V1.0	1. Add the function of checking the firmware version of the fixture via wire controller. 2. Optimize APP control via Bluetooth. 3. Optimize lighting effects control.	PavoBulb_10C_Fw_V1.00.23	2022-04-08
V2.0	1. Resolve the problems caused by the use of individual quick charging adapters.	PavoBulb_10C_Fw_V1.00.24	2022-04-18
V3.0	1. Optimize the CCT shift at 1% brightness.	PavoBulb_10C_Fw_V1.00.25	2022-04-21
4.0	1. Add the function of DMX setting. 2. Optimize the APP control via Bluetooth. 3. Fix the bugs.	PavoBulb_10C_Fw_V1.00.30	2022-10-21
V5.0	1. Optimize RDM information and fix the problem that RDM cannot search for multiple fixtures at the same time.	PavoBulb_10C_Fw_V1.00.32	2023-03-11
V6.0	1. Add the function of firmware update by Nanlink APP via Bluetooth. 2. Optimize Bluetooth APP control protocol and lighting data storage mechanism. 3. Add wireless DMX control function.	PavoBulb_10C_Fw_V1.01.01	2023-11-09

- **PavoBulb\_10C\_Fw\_V1.00.23**

**New Function Description:**

1. Add the function of checking the firmware version of the fixture via wire controller.
2. Optimize APP control via Bluetooth and fix the bugs.
3. Optimize lighting effects control and fix the bugs.

- **PavoBulb\_10C\_Fw\_V1.00.24**

**New Function Description:**

1. Resolve the problems caused by the use of individual quick charging adapters.

- **PavoBulb\_10C\_Fw\_V1.00.25**

**New Function Description:**

1. Optimize the CCT shift at 1% brightness.

- **PavoBulb\_10C\_Fw\_V1.00.30**

**New Function Description:**

1. Add the function of DMX setting (DMX REDUCED CHANNELS, DMX SMOOTHING, DMX DIMMING CURVE).
2. Optimize the APP control via Bluetooth.
3. Fix the bugs.

- **PavoBulb\_10C\_Fw\_V1.00.32**

**New Function Description:**

1. Optimize RDM information and fix the problem that RDM cannot search for multiple fixtures at the same time.

- **PavoBulb\_10C\_Fw\_V1.01.01**

**New Function Description:**

1. Add the function of firmware update by Nanlink APP via Bluetooth.
2. Optimize Bluetooth APP control protocol and lighting data storage mechanism.
3. Add wireless DMX control function.(WIRELESS DMX, WIRELESS DMX UNIVERSE)
